

# Howarth Professional Oboe

The S5 is our original professional oboe model. It has proved an ever-popular choice for the advanced musician. It has developed over the years to reflect changing tonal styles and requirements. The S5 is a thick-walled oboe offering you fine tuning and a rich sound.

The S5 model remains the benchmark upon which the Howarth reputation for quality has been built. Many of the greatest recordings have been and still are made using instruments from the S5 range. These time-proven oboes are admired in oboe sections the world over.
